*** Precautions**

1. Applications for entrance fee exemption or deferred payment must be submitted without fail prior to the admission procedure, which is implemented after receiving an acceptance ticket.
2. A deferred payment plan is available for entrance fees. If you opt for this plan, please submit a separate deferred payment application, which is different from the application for exemption from these fees.
3. For undergraduate students only those who have been admitted to a program and to whom apply the eligibility items b) or c) are eligible to submit an application for entrance fee exemption.
4. Payment of entrance fees and tuition by persons applying for entrance fee and tuition exemption or deferred payment is deferred until the results of the screening are determined (bank account withdrawal of persons who registered a bank account for tuition withdrawals is also deferred). Please note, however, that eligibility will be invalidated if an applicant pays the relevant fees before the results are determined.
5. Those who have applied for tuition exemption (or tuition deferred payment) for the second semester during the application submission period for the first semester in fiscal 2011.

※If applicants submit an application for the first and second semester together, they do not have to submit an application for the second semester again later. However, applicants to whom any of the following conditions apply should submit their application during the application submission period of the second semester:

- Cases in which the information (family, study or household budget) provided in the application on April 1 will have changed by October 1.
- Cases where the applicant will have changed program in October.

◇Please refer to “points to consider” in the application form with regard to documents required for reapplication for the second semester.

◇Please submit your renewed application as early as possible so that any changes to it can be verified.

※Even when submitting an application for the first and second semester together, applicants will be selected for each semester separately. Please note that successful applicants for the first semester will not necessarily receive tuition exemption or deferred payment of tuition for the second semester, and vice versa. Please confirm the selection result for the second semester as well.

6. Please note that applications for entrance fee and tuition exemption or deferred payment will not be accepted for any reason whatsoever after the elapse of the application submission term.
7. The schedule for tuition exemption and deferred payment of tuition for the First semester of the 2012 academic year will be uploaded on this website around February 2012.
8. Since the application distribution and submission terms and locations are different for students in the departments and research courses given below, please consult the person in charge for further information:

College of Arts and Sciences, Graduate School of Arts and Sciences,
and Graduate School of Mathematical Sciences
Scholarship Fund Section, Student Affairs Division at the College of Arts and Sciences

For inquiries regarding entrance fee and tuition exemptions or deferred payment, contact Scholarship Team Student Scholarship and Welfare Group Education and Student Support Department, (section in charge of tuition exemptions) (tel: 03-5841-2547, 2548).

* Please submit your application early since there is usually considerable confusion and long lines at the counter as the deadline for application submission approaches.

* We are closed August 15 and 19.

Note: Please comply strictly with the application deadline since applications submitted after the deadline will not be accepted for any reason whatsoever.
